

★★★ Difficulty level ★easy ★★moderate ★★★ challenging

Resene kids art with Mark Rayner – 15

### You will need:

- Chalk
- Damp cloth
- Paintbrushes
- Piece of MDF
- Resene Blackboard Paint

- Resene Quick Dry Acrylic Primer Undercoat
- Resene testpots of Resene Broom and Resene Jacksons Purple

#### Step one

Prime the piece of MDF with one coat of Resene Quick Dry Acrylic Primer Undercoat. Allow to dry.

#### Step three

Draw a large oval shape in the centre of the board with chalk. Carefully paint two coats of Resene Jacksons Purple around the edge of the board, using the chalk line as a guide. Don't paint over the chalk as paint doesn't stick well to chalk.

#### Step four

Fill in the spots using Resene Broom. Once it's dry, wipe off the chalk line with a damp cloth, grab your chalks and get creative!

Use Resene Blackboard Paint and Resene testpots to create a cool framed blackboard.

#### Top tip:

The paint will dry quicker if you leave it outside on a sunny day.

#### Here's another idea:

Get creative and make your own blackboard TV.
