Named after National Parks and Forest Parks, this collection of Resene natural wood oil colours is designed to bring out the best in your timber inside and out. Use on weatherboards, landscaping, interior walls and ceilings to protect, enhance and rejuvenate your timber finishes. Continue the same colour from your exterior to your interior for seamless style. The natural wood oil may also be used as a clear finish to protect interior timber.

All Resene Woodsman Cedar Natural Wood Oil colours are shown as they would appear on cedar. The final finish will depend on the timber you are staining. Always test your chosen colour on a representative sample of timber before making your final colour choice. Resene testpots are available from Resene ColorShops and resellers or order online, shop.resene.com. Or view physical wood oil samples at your local Resene ColorShop or reseller.

In honour of this tree inspired collection, Resene has donated 500 native trees to Trees That Count to help regenerate native forests. This adds to the many thousands of native trees Resene and Resene Eco.Decorators have donated since 2020.

cc = Available as a Resene CoolColour. CoolColour and standard variants of a specific colour use different pigment combinations by necessity to achieve a match to the same Resene master standard. This can cause slight colour differences depending on the degree and type of light, which varies natural during the day. Check with Resene ColorShop staff whether a CoolColour is right for your project.

© Copyright Resene Paints Ltd, 2022. Accurate reproduction of the colours shown in this colour range is only available using genuine Resene premium products, tinters and formulations. These are not available from other manufacturers or retailers. Unauthorised use of Resene colours and colour names breaches Resene's copyright and trademark rights. Colours may appear to vary with different gloss levels, lighting, substrate texture and application method and technique. Please recycle.
