'In the pink' plant display

Mark Rayner shows you how to build this space-saving hanging plant display – perfect for injecting a splash of colour on a cool winter's day.

YOU WILL NEED

- 3 x terracotta pots
- 3 x pot hangers
- 3 x pink cyclamen
- Offcut of landscaping timber or treated plywood
- Paintbrush
- Resene Quick Dry
- Resene Terracotta Sealer
- Resene testpots of Resene Cabaret, Resene Deep Blush, Resene Geronimo and Resene Illusion
- Screwdriver with drill bits or power drill
- Exterior screws to attach timber or plywood to fence
- Good quality potting mix

Step 1
Apply one coat of Resene Terracotta Sealer to the terracotta pots inside and out and allow to dry.

Step 2
Apply one coat of Resene Deep Blush to the first pot and allow two hours to dry.

Step 3
Apply one coat of Resene Cabaret to the second pot and allow two hours to dry.

Step 4
Apply one coat of Resene Illusion to the third pot and allow two hours to dry.

Step 5
Apply one coat of Resene Quick Dry to the piece of timber or plywood and allow two hours to dry.

Step 6
Apply a second coat of colour to each of the pots, allowing two hours for each coat to dry.

Step 7
Apply one coat of Resene Geronimo to the timber or plywood and allow two hours to dry.

Step 8
Apply a second coat of Resene Geronimo to the timber or plywood and allow two hours to dry.

Step 9
Using good-quality potting mix, plant each of the painted pots with a cyclamen.

Step 10
Fix the three pot hangers to the painted timber or plywood, ensuring they are spaced equally, as shown. Use the screws provided and drill pilot holes first.

Step 11
Fix the plant hanger to a fence using appropriate exterior screws.

Step 12
Hang a painted pot from each of the pot hangers.

HERE'S ANOTHER IDEA

Create a trio of funky gold metallic pots by using a basecoat of Resene Porsche, followed by two coats of Resene Bullion, and paint the wood with Resene All Black. For an extra shiny look, finish off the pots with two coats of Resene Multishield+ gloss.
