

# DIY HANGING PEG BOX

Mark Rayner shows you how to make this colourful hanging peg box from treated plywood.

## YOU WILL NEED

25mm galvanised jolt head nails  
Cardboard  
Drill with 10mm drill bit  
Hammer  
Jigsaw  
Offcuts of 9mm and 15mm  
treated plywood  
Paintbrush  
Pencil

PVA glue (exterior)  
Resene Lustacryl tinted to  
Resene Elvis  
Resene Quick Dry  
Ruler  
Sandpaper  
Saw  
Scissors

1 Mark two pieces of 15mm plywood measuring 300mm x 150mm and two pieces measuring 170mm x 150mm. Mark one piece of 9mm plywood measuring 300mm x 200mm.

2 Cut the pieces of plywood using pencil lines as a guide.

3 Smooth any rough edges with sandpaper.

On a flat surface, assemble the sides of the box, as shown, fixing along each edge with PVA glue and 25mm nails.

Attach the base to the box, fixing with PVA glue and 25mm nails.

Draw a curved handle template, as shown, on a piece of cardboard.

Cut out the template with scissors.

Place the template on a piece of 9mm plywood and trace around the edge, as shown. Reposition the template and trace a second handle.

Cut out both handles with a jigsaw and smooth any rough edges with sandpaper.

Drill six 10mm drainage holes in the base of the box and fix the two handles into position, as shown, attaching with PVA glue and 25mm nails.

Apply one coat of Resene Quick Dry to the peg box and allow two hours to dry.

Apply two coats of Resene Elvis to the peg box, allowing two hours for each coat to dry.

For more on paints phone 0800 RESENE (0800 737 363) or visit your Resene ColorShop or [www.resene.co.nz](http://www.resene.co.nz)

### HERE'S ANOTHER OPTION:

Create a fun gold effect by painting the peg box with one coat of Resene Porsche followed by two coats of Resene Bullion.

### TO GET THE LOOK:

Mark painted the background shed wall with Resene Lumbersider tinted to Resene Soft Apple.
