

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging Resene kids art with Mark Rayner – 107

You will need:

- Masking tape
- Paintbrushes (including a small artists' brush)
- Pliers
- Resene Art Action Quick Dry
- Resene testpots of Resene Alabaster, Resene Nero and Resene Smitten
- Two pieces of wire approx 30cm long
- Wooden spoon

Step one

Use the pliers to bend the pieces of wire to form the critter's legs and fix to the wooden spoon with masking tape (you might need a grown-up to help with this bit). Continue to wind masking tape around the whole critter until it's completely covered.

Step two

Apply one coat of Resene Art Action Quick Dry to the critter, allowing two hours to dry.

Step three

Apply two coats of Resene Smitten to the critter, allowing two hours for each coat to dry.

Step four

Paint in face details with Resene Alabaster and Resene Nero. Allow two hours to dry. How cool is that?

It's easy to create your very own creepy critter with a little bit of help from Resene.

Top tip:

If you don't have any masking tape simply use ordinary sticky tape or parcel tape instead.

Here's another idea:

This creepy Egyptian mummy puppet was made in the same way and decorated using Resene Alabaster, Resene All Black and Resene Pink Panther.
