

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging

Resene kids art with Mark Rayner – 70

You will need:

- MDF castle cut-outs (ours came from 'Spotlight' and were sold in a pack as scrapbooking covers)
- MDF base (ours measured approximately 200mm x 250mm)
- Paintbrushes

- PVA glue
- Resene Art Action Quick Dry waterborne primer undercoat
- Resene Crackle
- Resene Testpots of Resene Broom, Resene Havelock Blue and Resene Tory Blue

Step one

Using PVA, glue the MDF castle cut-outs together onto the MDF base, as shown, and allow to dry.

Step two

Paint the castle with one coat of Resene Art Action Quick Dry and allow to dry for two hours.

Step three

Paint the base and inside of the castle walls with two coats of Resene Tory Blue, allowing two hours for each coat to dry.

Step four

Paint the outside of the castle walls with two coats of Resene Havelock Blue, allowing two hours for each coat to dry.

Step five

Apply one coat of Resene Crackle to the inside and outside of the castle walls and allow to dry.

Step six

Apply one coat of Resene Broom to the inside and outside of the castle walls and allow to dry for two hours. How magical is that?

Combine Resene Crackle with a few testpots to create this cool crackle effect castle.

Top tip:

The thicker you apply the Resene Crackle, the larger the cracks will be – but don't put it on too thickly or it will run.

Here's another idea:

This stone cottage was painted with Resene Astronaut, Resene Bone, Resene Kermit, Resene Pulse and Resene Whiskey Sour.
