Resene

Outdoor work bench

★★☆ **Difficulty level**   ★ easy   ★★ moderate   ★★★ challenging   **Fun with furniture with Mark Rayner – 58**

You will need:

- Decking nails
- Hammer
- Old wooden work bench
- Paint stirrer
- Paintbrushes

- Resene Lustacryl tinted to Resene Green House
- Resene Wood Primer
- Turps for cleaning paintbrush

Step 1
Clean the work bench thoroughly and fix any loose pieces of wood with decking nails.

Step 2
Carefully stir the Resene Wood Primer.

Step 3
Turn the bench upside down and apply one coat of Resene Wood Primer to the underside.

Step 4
Turn the bench the right way up and apply one coat of Resene Wood Primer to the top, sides and legs and then allow to dry. Clean brush in turps.

Step 5
Carefully stir the Resene Lustacryl tinted to Resene Green House.

Step 6
Turn the bench upside down and apply one coat of Resene Lustacryl tinted to Resene Green House to the underside.

Step 7
Turn the bench the right way up and apply one coat of Resene Lustacryl tinted to Resene Green House to the top, sides and legs. Allow two hours to dry.

Step 8
Apply a second coat of Resene Lustacryl tinted to Resene Green House to the bench and allow two hours to dry.

It's easy to revamp an old wooden work bench with a little bit of help from Resene.

To get the look:
Mark painted the watering can with Resene Lumbersider tinted to Resene Spritzer.

Other ideas:
For a rich brown effect paint the bench with Resene Lustacryl tinted to Resene Brown Pod.
