

★★★ Difficulty level ★ easy ★★ moderate ★★★ challenging Fun with furniture with Mark Rayner – 60

Go bold and brighten up an old garden chair using a fabulous Resene orange.

You will need:

- Clean cloth
- Garden chair
- Mineral turps for cleaning brushes
- Paint stirrer
- Paintbrushes
- Resene GP Metal Primer
- Resene Super Gloss tinted to Resene Adrenalin
- Resene Wood Primer
- Sandpaper

Step 1
Sand any areas of rust from the metal frame and then wipe off any sanding residue with a clean cloth.

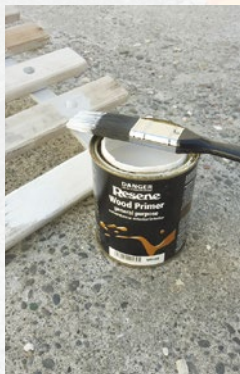

Step 2
Carefully stir the Resene GP Metal Primer.

Step 3
Apply one coat of Resene GP Metal Primer to the metal frame and allow to dry. Clean brush with mineral turps.

Step 4
Carefully stir the Resene Wood Primer.

Step 5
Apply one coat of Resene Wood Primer to the wooden slats and allow to dry. Clean brush with mineral turps.

Step 6
Carefully stir the Resene Super Gloss tinted to Resene Adrenalin.

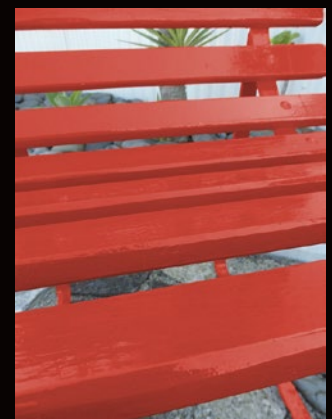

Step 7
Apply one coat of Resene Super Gloss tinted to Resene Adrenalin to the chair and allow to dry.

Step 8
Apply a second coat of Resene Super Gloss tinted to Resene Adrenalin to the chair and allow to dry. Clean brush with mineral turps. Or, for a waterborne finish, replace Resene Super Gloss with Resene Enamacryl.

To get the look:
Mark painted the background corrugated iron fence with Resene Enamacryl tinted to Resene Sponge.

Other ideas:
For a vibrant red effect paint the chair with Resene Chaos.
