Ways with wood  
with Mark Rayner – 53

### You will need:

- Clean cloth
- Paintbrush
- Paint stirrer
- Piece of dressed timber measuring approx 90mm x 90mm x 40mm (ours came from a renovator's centre)
- PVA glue
- Resene Aquaclear gloss
- Resene Colorwood Enhance – Black
- Sandpaper
- Saw
- Wooden table leg

Create this stylish candleholder from an old table leg and a block of timber and finish it off with easy-to-use Resene Colorwood Enhance and Resene Aquaclear.

### To get the look:

Mark painted the background wall with Resene SpaceCote Flat tinted to Resene Vitra.

### Other ideas:

For a lighter brown finish use Resene Colorwood Enhance - Walnut.

For more ideas and inspiration visit your local Resene ColorShop or the Resene website.

**Step one**  
Cut the timber to size and trim the table leg to a 300mm length.

**Step two**  
Smooth any rough edges with sandpaper and wipe off any sanding dust with a clean cloth.

**Step three**  
Lightly sand the table leg and wipe off any sanding dust with a clean cloth.

**Step four**  
Fix the table leg to the centre of the block of timber, as shown, using PVA glue. Allow glue to dry.

**Step five**  
Shake the Resene Colorwood Enhance.

**Step six**  
Carefully pour the Resene Colorwood Enhance into the Resene Aquaclear and stir thoroughly.

**Step seven**  
Apply one coat of the coloured Resene Aquaclear to the candleholder and allow two hours to dry.

**Step eight**  
Apply a second coat of the coloured Resene Aquaclear to the candleholder and allow two hours to dry.
