

### You will need:

- Bucket
- Concrete patio area (previously painted with waterborne paving paint)
- Garden hose with clean running water
- Paintbrush
- Paint stirrer
- Paint tray and roller
- Resene Moss & Mould Killer
- Resene Non-Skid Deck & Path tinted to Resene Off Piste
- Resene Paint Prep and Housewash
- Rubber gloves
- Stiff-bristled brush

#### Step one

In a clean bucket, mix one part Resene Moss & Mould Killer to five parts clean water.

#### Step two

Wearing rubber gloves and using a stiff-bristled brush, soak the patio area with the solution and leave for 48 hours.

#### Step three

Mix one part Resene Paint Prep and Housewash to three parts clean water.

#### Step four

Scrub the patio area thoroughly with the solution using a stiff-bristled brush and then rinse well with clean water. Allow to dry.

#### Step five

Carefully stir the Resene Non-Skid Deck & Path tinted to Resene Off Piste.

#### Step six

Using a paintbrush, cut in around the edge of the patio area with Resene Non-Skid Deck & Path tinted to Resene Off Piste.

#### Step seven

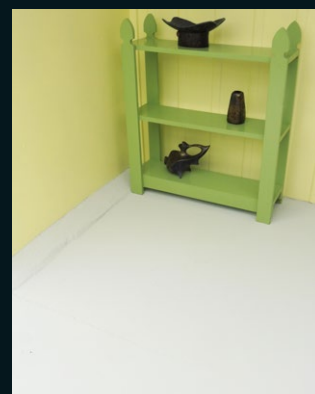

Using the paint tray and roller, apply one coat of Resene Non-Skid Deck & Path tinted to Resene Off Piste to the patio area and allow to dry.

#### Step eight

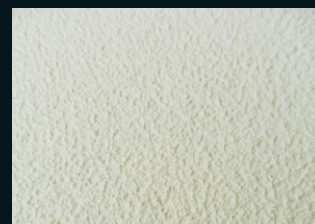

Apply a second coat of Resene Non-Skid Deck & Path tinted to Resene Off Piste to the patio area and allow to dry.

It's easy to revamp an old painted patio with a little bit of help from Resene.

### To get the look:

Mark painted the background wall with Resene Lumbersider tinted to Resene Pale Prim.

### Other ideas:

For a darker grey effect, paint the patio area with Resene Non-Skid Deck and Path tinted to Resene Traffic.

### Top tip:

Non-skid finishes will trap more dirt than smooth finishes. Use Resene Paint Prep and Housewash to wash the surface as needed to keep it looking good.
