**Notes:**

All colours can be viewed as a palette. They consist of two neutrals, and one much lighter colour that can be used as a 'white' or a colour for walls etc.

The deeper accent colours give inspiration for features, fabrics, ornaments or interesting items.

This doesn't mean all of the colours have to be used, one or two may be chosen only.

The colours, if chosen, are the personal choice of the client and don't preclude other options being picked.

The colours are an indication of what might appeal not a 'only these colours are Right!' statement.
