

Greystones

Christchurch

Built on a lifestyle block, this home has a wide colour palette. In the family room the colours needed to be sympathetic to the large expanse of Oregon ceiling and trusses and the oversized greywacke stone fireplace. **Resene Tea** was used on the walls with a feature of the stronger colour **Resene Stonewall** for the two end walls.

In the large entrance foyer **Resene Half Sandcastle** is complemented by **Resene Metallic Copper** on the curved stairway wall for a touch of glamour and on alternating walls upstairs which play well against the black wrought iron balustrading.

Inspiration for the colour scheme and theme for the boys' bedroom came from a treasured red iron toolbox. **Resene Jalapeno** was used as a feature colour behind the bed as the red matched the toolbox. A striped fabric for the roman blind inspired the other colours in the room – **Resene Billy T** and **Resene Matisse**. **Resene Comfort Zone** and **Resene Quarter Tea** complete the look.

The master bedroom bed linen matches a wedding colour theme and for an opulent look an imported colour chandelier and anaglypta wallpaper painted in **Resene Biscotti** with the remaining three walls in **Resene Half Biscotti**. On the plaster

cornice and ceiling are **Resene Pearl Lusta** for a creamy finish.

Guest room 1 uses **Resene Half Smalt Blue** and **Resene Quarter Crisp Green** to complement existing green furniture. A brass chandelier painted in **Resene Beatnik** has crystals hung on it for extra glam. An antique mirror and cabinet have also been transformed with **Resene Beatnik** into a funky matching set.

By keeping the ceilings white and using **Resene Enamacryl** in **Resene Rice Cake** on the window frames and skirting boards throughout this home, it has made the stronger wall colours pop.
