## French Resolution

A bold electric blue wall in Resene Half Resolution Blue elevates the ordinary - turning this living space into a gallery with pops of crisp white and Resene Smashing red. The colourful drama creates a complementary contrast to highlight the detail in the Thomas Bina Blaine Media Console from Frobisher.

### CURVED COLOUR ▶

The red Roman Vase by Pils Potten comes as part of a multi-coloured set with various silhouettes. Here the red Roman Vase brings effortless style and character with a refined touch. Crafted in metal with a matte powder coated finish, this vase has a soft, tactile feel.

### STYLISH ENTERTAINMENT ▶

This piece is raw and refined, classic and contemporary. Modern steel legs are the perfect counterpoint to a rustic frame and sliding door fronts; crafted from silver knotty oak solids and veneers in a unique slat-effect. Behind the cabinet doors are two generous sized shelves, with cable management holes inside.

### ▼ LUXURIOUS BUBBLES

The Bubble Bubble Table Lamp from Frobisher creates a luxurious and lavish aesthetic. Taken from the whimsical mid-century curves, this blown glass lamp moves into a contemporary world with polished iron fittings and an acrylic base.

### CLASSIC CONTRAST ▶

This classic Vogue 1950 Print interrupts the Resene Half Resolution Blue wall with a touch of drama. Connected to the surrounding accessories by the blue eye detail and crimson lips, this showstopping print adds style to any space.

## Coastal Calm

Soft greens and warm neutral colours combine in this relaxed coastal living room. The wall in Resene Half Villa White is a complementary neutral to the Battens in Resene Bud. Olive trees and toitoi bring an instant coastal cool, while layers of accessories in various neutral and green tones create an inviting natural environment for the Thomas Bina Blaine Media Console from Frobisher.

### BRANCHING OUT ▶

Plants add instant appeal to living spaces by softening the hard edges and adding texture. The silvery leaves of this faux olive tree by Pottery Barn at Ballantynes form a lacy screen that filters light and adds elegance.

### SOOTHING SCENE ▶

This stunning large format, timber-framed architectural photographic print of an Ivory Cliff will make a calming statement in any room, with natural earthy hues and a sense of texture...

### TEXTURED WARMTH ▶

Textural neutrals, like this Slub Stripe Sweater Rug from Ballantynes, are an easy, goes-with-anything layer for your floor. This hand-loomed wool rug weaves together thick and thin yarns to create a dimensional piece that's as cosy as your favourite jumper.

### ◀ LAYERED HARMONY

Create interesting vignettes on your living room surfaces with vases and ornaments in varying heights and textures. Layering tones of colour is harmonious on the eye. Here layers of sculptural pieces connect with their surroundings.
